Full Stack Developer with over 7 years of experience in the design, development, and optimization of scalable, high-performance web applications. My primary role is to ensure business continuity through troubleshooting and resolution, and providing technical support for the products..

PROFESSIONAL EXPERIENCE

Cajacopi EPS SAS **Atlántico, Colombia**
Development Team Leader / Full Stack Developer *Sep 2018 – Actually*

- I led a team of developers, managing resource allocation, schedules, and technical mentoring, achieving a 30% improvement in IT area productivity.
- I designed and developed over 70 web applications and modules, optimizing internal processes and improving the user experience for over 700 employees.
- I implemented scalable solutions with AngularJS, Oracle SQL/PLSQL, PHP, Python, reducing critical process load times by 40%.
- I promoted the adoption of agile methodologies and version control with GitHub, increasing the efficiency of project delivery and the adoption of best coding practices, resulting in higher software quality and maintainability.
- By assuming both frontend and backend roles, I accelerated the development cycle and the delivery of new projects, meeting deadlines 30% faster than usual.
- I built the API that allows the reception, storage, and processing of over 15,000 invoice file requests using Python, MongoDB, Oracle PL/SQL, and Nginx.
